**No limit**

# Business income

# Income process

- There are 2 types of income here, one is investment income which you invest and the other is team income which you do through work, investment income in which if you invest 3000 rupees or more then you will get 10% of your investment every month which you do not withdraw and reinvest that money in your account every month and suppose you keep retoping your money every month for 5 years in this way then you can earn lakhs of rupees every month without any hard work

Team income is given to you in 10 levels in which you get 3% of your investment at level 1. Similarly you get it up to 10 levels in which from your joining till 10th level you will get total 20% income every month after completing 10 levels. Which is shown below.

# Investment income

- suppose we invested Rs. 3000 in growwell and we got a profit of 10% of Rs. 3000 i.e. Rs. 300 and instead of withdrawing that money we reinvested the same money and now our investment will become Rs. 3300, then we will get 10% of Rs. 3300 every month. Similarly, whatever profit we get on our invested money for 5 years, instead of withdrawing it, if we keep investing the same money every month for 5 years, then after 5 years our investment will become Rs. 829595 and we can earn Rs. 82959 per month even without working
